

Cloud Optimise

Insight-led cloud optimisation

Maximise your cloud cost savings,
performance and productivity with LIMA.

LIMA's cloud optimisation service helps you maximise the value of your cloud environment and gain transparent control over costs.

As a strategic IT partner, our cloud experts will collaborate, plan, manage, architect and deliver the optimal cloud environment for your business.

Six key benefits of LIMA Cloud Optimise:

Hone operational and cost efficiencies

Align your cloud costs to your business needs with expert guidance in the best usage of platforms, services and applications. With optimal cloud performance, the costs are in your control.

Insight-led service you can trust

Access to a team of dedicated cloud and optimisation experts who continually monitor, analyse, and identify efficiency savings through your cloud services.

Transparent cost control

Avoid unbudgeted OpEx spend and implement flexible financial management.

Cloud concierge

Benefit from a concierge that gives you access to remote cloud and infrastructure strategy sessions with our experts.

Reduce risk

Improve governance, enhance security and ensure your cloud strategy is effectively managed by our high-skilled cloud experts.

Increased value

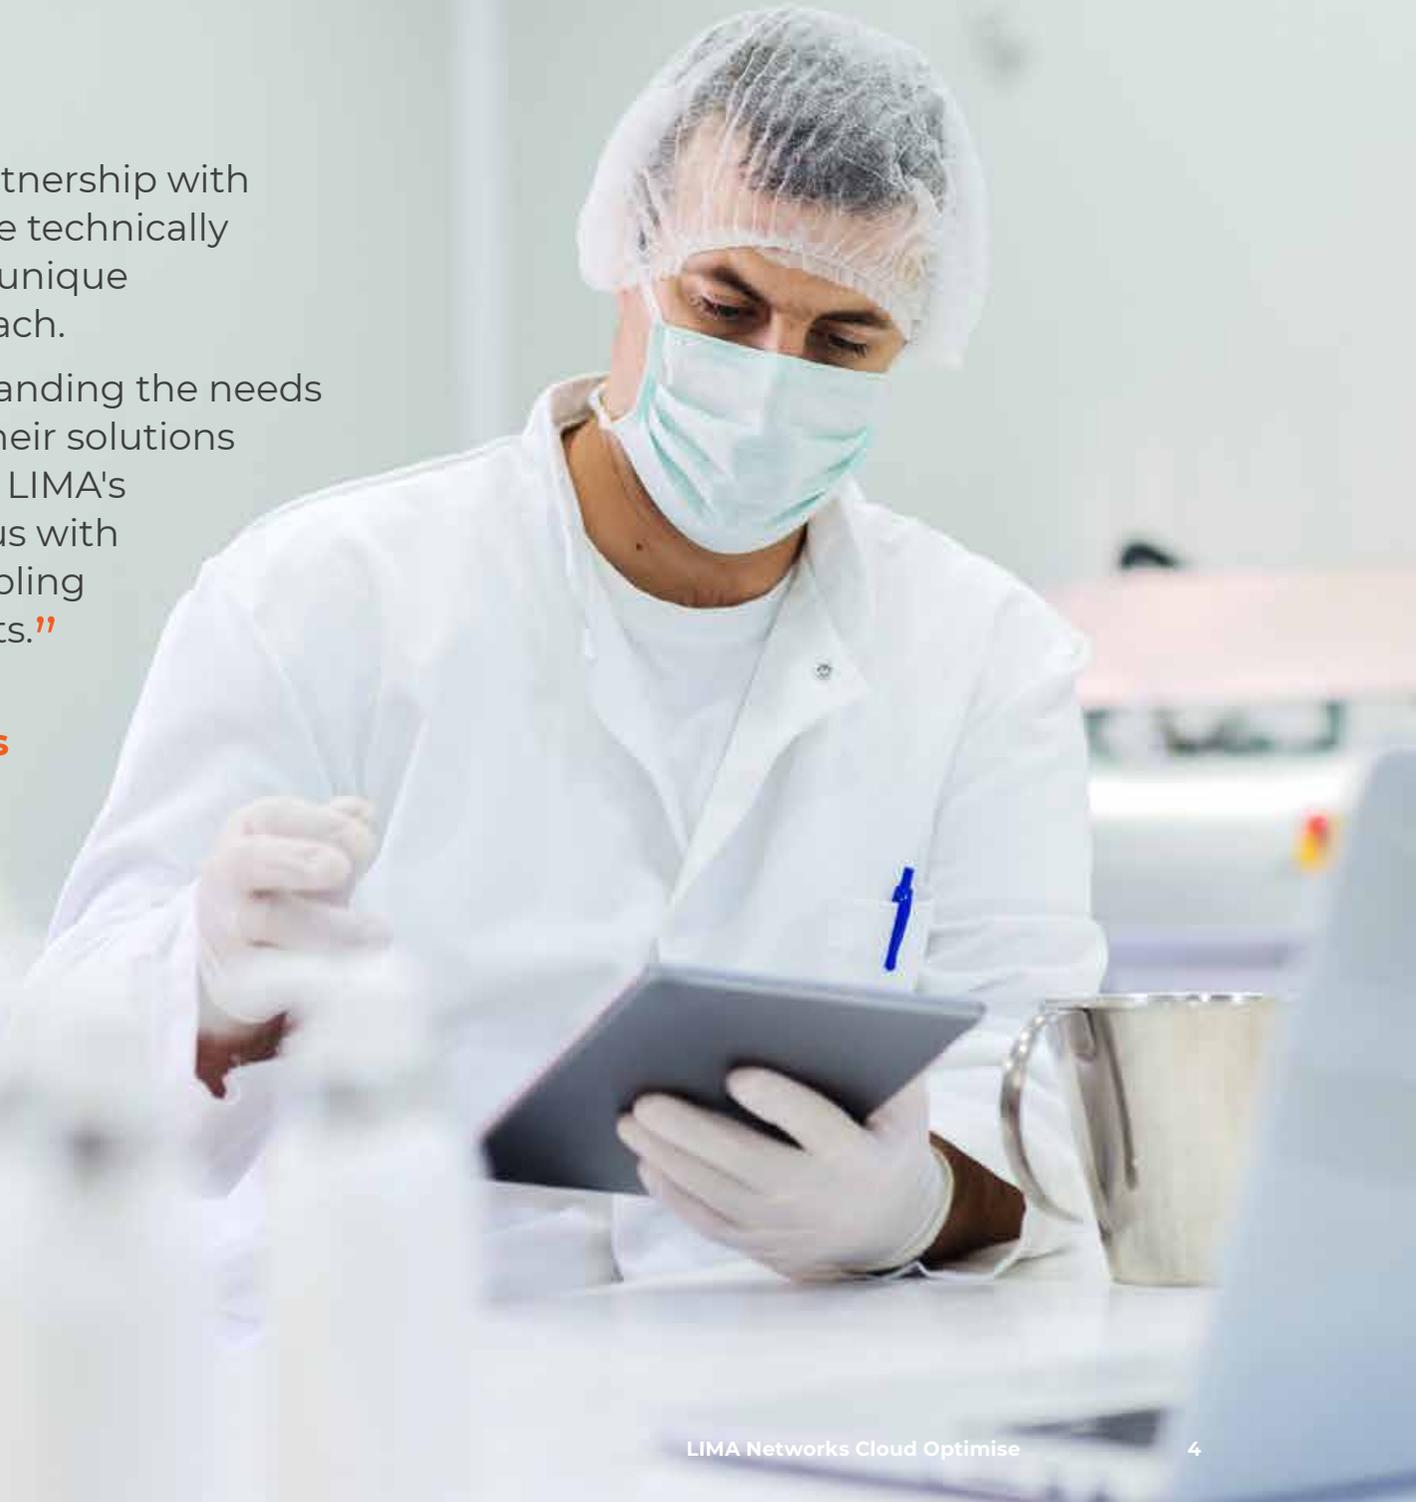

Only pay for what you need and make better use of cloud to drive innovation, transformation and growth.

Cloud optimisation is about more than saving money, it's about working a cultural shift to enable the business to move faster with fiscal discipline. **451 Research**

“ It's a pleasure working in partnership with LIMA, not just because they are technically excellent but because of their unique values and consultative approach.

They are dedicated to understanding the needs of their customers to ensure their solutions provide real business benefits. LIMA's cloud solutions are providing us with invaluable peace of mind, enabling us to focus on strategic projects.”

Andrew Naylor, Director of Transformation at Mawdsleys pharmaceuticals.
